

SIX Digital Exchange

Your trusted and regulated gateway to tokenized securities.

SIX Digital Exchange is the world's first fully regulated digital exchange and central securities depository. And it's live. Now. This means you can issue, trade, and secure your bonds, equities, tokens on one, single, reliable, and trusted DLT-based offering. As a trader, broker-dealer, banker or corporate this is the perfect moment to look at the world of Digital Assets.

SDA
a SIX company

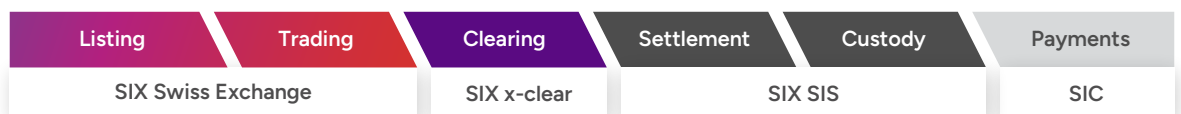

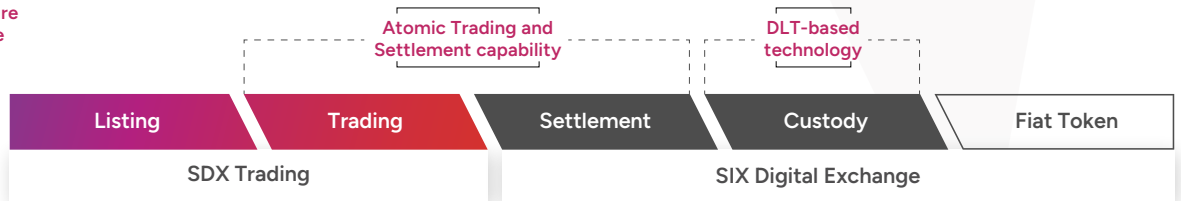

High level issuance/tokenization journey combining traditional and new processes

Pre-Issue / SDX

SDX aims to simplify the value chain, drive efficiency gains and reduce cost over time

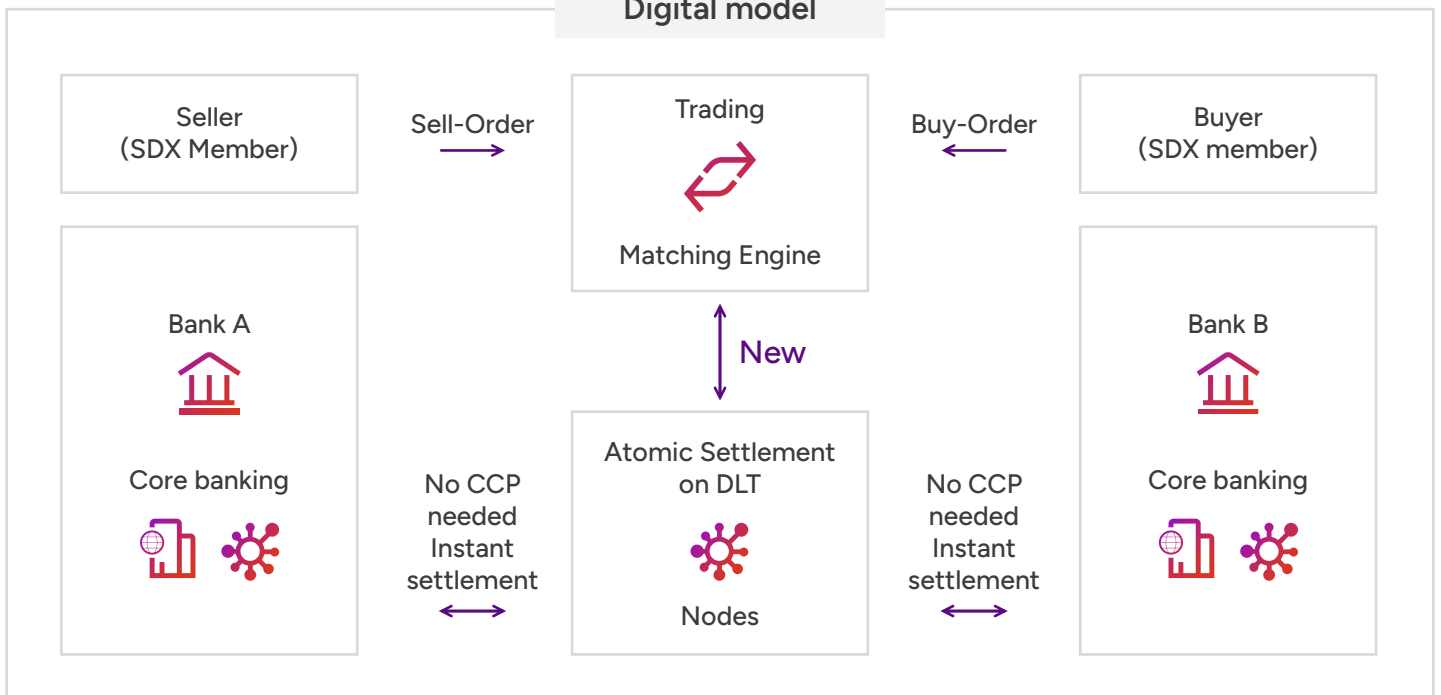

Digital Market Infrastructure (DMI) covering the entire value chain (e2e)

Digital model

Integrated CSD and Exchange – efficiency gains and cost savings along the value chain

Digital model

Exchange

- Listing of securities
- Multilateral trading
- Contract conclusion along non-discretionary rules
- Starting with equities and bonds

Securities in form of intermediated securities on decentralized ledger

Atomic Trading & Settlement resulting in reduced settlement risk and cost savings

CSD Operation

- Central Securities Depository on DLT
- Settlement system
- Creation of intermediated securities according to the Swiss Federal Act on Intermediated Securities

Benefits of onboarding with SDX

We are a **trusted partner**:

Owned by **SIX**, one of Europe's leading regulated Financial Market Infrastructure (FMI) providers.

9 existing members

FINMA (Financial Market Supervisory Authority) regulated to the highest standard.

Central Securities Depository on Distributed Ledger Technology:

Enables **efficiency gains** through atomic settlement and peer-to-peer transactions.

Enables **automation** of Corporate Actions.

Reduces settlement risk.

Why onboard now:

- › Gain access to the fully integrated value chain of digital assets from issuance, listing, trading, settlement, asset servicing and custody offered by SDX.
- › Connect to the next generation Digital Market Infrastructure and be a pioneer in the innovation journey to simplify, modernize and reduce the risk and costs associated with trading and post-trade.
- › Change the way you interact with an exchange and CSD while gradually reducing complexity and the operating costs of post-trade by leveraging automation and smart features of DLT-based securities tokens.
